Decorator Finishes

# Schedule 40 Full and Half Kits

**BLUE TOP ELL WASHER**  
fits securely to top ell.  
Will not fall behind tub.

**TAPPED TOP ELL HOLES**  
speeds installation.

**ALUMINUM CROSSBAR** installs quickly. Open end allows cleanout access without disassembling.

**BRASS SCREWS** with deep philips socket to prevent screwdriver from slipping.

**TOP ELL TEST CAP** rubber o-ring seal for error free testing.

**IAPMO LISTED** high quality to strict industry standards.

**FULL KIT** includes 4" and 12" Sch. 40 pipe with Sch. 40 tee and all components required for rough-in, testing and finish installation.

**HALF KIT** includes all components for rough-in, testing and finish installation except pipes and tee.

**DIRECT DRAIN** includes all components for rough-in, testing and finish of a waste outlet only.

**1-HOLE FACEPLATE** saves time with symmetrical look.

**"CLEANOUT"** on faceplate for code compliance.

**STANDARD COMPONENTS**  
All stoppers have 3/8" stems and all spuds have 1 1/2" threads. Allows complete interchangeability of drain units and colors.

**TEST SYSTEM** for overflow and waste, perfect for installations that require leak testing. Capable of holding 30 feet of head pressure.

**WASTE TEST CAP** rubber seal protects entire spud surface during construction.

**BRASS SPUD** for strength and durability.

**SEALING WASHER** durometer and thickness engineered for a leak-free seal.

**1 1/2" DRAIN SHOE** for improved water flow.
